EXCEPTIONAL HYGIENE STANDARDS

THE SAFEST SURFACE

Mirostone® is a completely safe surface on which to prepare and eat food, even if the children have taken over the kitchen! It's easy to clean and waterproof so harmful germs are prevented from being retained on the surface.

WATERPROOF

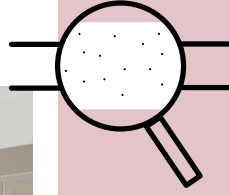

PERFECT FOR ALL WET AREAS

Mirostone® is a pure solid surface through and through. It has no chipboard or MDF core, making Mirostone® completely waterproof. Even the hot steam from an opened dishwasher cannot damage Mirostone®! This non-porous quality makes Mirostone® one of the most hygienic surfaces available.

The 100% waterproof quality of Mirostone® makes it one of the most hygienic surfaces available, because a clean, dry surface prevents bacteria from developing.

Easy to maintain and user friendly, Mirostone's surface washes off everyday marks with just soap and water, leaving it looking as good as new.
