AND AESTHETICS
GO HAND
IN HAND

On the leading edge of kitchen fashion, Amorini supplies a range of high-quality worktop products from modern European designers and manufacturers.

Duropal Pyroex Splashbacks are a type of compact high-pressure laminate that is flame retardant and compliant with Australian and New Zealand standards.

They are suitable for installation behind a gas hob when installed according to the Splashback Fitting Guide. These splashbacks are made of 4mm compact material, laminated in multiple layers, with a decorative surface on both sides.

They are flexible, do not require special tools for installation, and are easy to clean. The compact material is durable, resistant to wear, impact, and scratching, making it long-lasting.

-  4mm thickness
-  Heat resistant
- 2** Two working day dispatch
-  Moisture resistant
-  Resistant to scratching
-  Impact resistant
-  Easy installation
-  Fire retardant
-  Manufactured to your specified sizing
